

Product Specification Sheet

Product Code: **2GEN-1250**

Item: **1250kVA Generator**

Description: The 1250kVA is a fully integrated, robust power generation system that sets new benchmarks in performance, reliability and efficiency for standby service and prime power ? even in hot and harsh operating environments. This versatile unit offers a wide voltage range for continuous, prime or standby applications in commercial, industrial, utilities and more. The one megawatt generator unit is housed in a 20-foot ?CSC plated? ISO container and is easy to transport. The compact yet high-performance unit delivers optimal, cost-effective power in less space than any other generator set in the industry.

Accessories:

- Cable Cross Over - Lane
- Bulk Fuel Tanks
- SDI Cable
- 400Amp 3 phase extension leads

Technical Information:

Total Cooling Capacity (kW):
Heating Capacity (kW):
Stages: **0**
Air Flow (l/s): **12.7**
Refrigerant:

Physical Information:

Height (mm): **2591**
Width (mm): **2438**
Length (mm): **6058**
Weight (kg): **17500**

Power Requirements:

Power Requirements:
Separate Circuit Required:
Required Curcuit Breaker (amps):
