

Product Specification Sheet

Product Code: **1POR-2006**

Item: **4.8kW Water Cooled Split System**

Description:

The WCS-4800 is designed for a fast installation and start up. This unit is very useful where access to the outside is difficult and some distance from internal rooms because the outdoor unit (heat exchange) can be placed up to 30 meters. An economical unit which does not require continuous water. Quiet in operation enables them to be used on general offices as well. With durable metal construction and 4 wheeled, they are space-efficient as they don't need to have a hot air exhaust duct. A control panel provides ease of use and contains self-diagnostic function. Choice of continuous operation or automatic timer is also available.

Technical Information:

Total Cooling Capacity (kW): **4.8**
Heating Capacity (kW):
Stages: **0**
Air Flow (l/s):
Refrigerant: **R410A**

Physical Information:

Height (mm): **865**
Width (mm): **705**
Length (mm): **350**
Weight (kg): **91**

Power Requirements:

Power Requirements: **50Hz, Single Phase, 220 -240V,**
Separate Circuit Required:
Required Curcuit Breaker (amps): **10Amsp separate circuit**
